Systems

Windows
Linux (Ubuntu)
macOS
Android

Tools

Git
Bash
Postman
Webpack
Redis
Docker

#Work Experience

iRadar Data / Full Stack Developer

2018 – Current: Ottawa, Canada

- Design and develop full-stack solutions focused on solving use case from web UI, to backend and database.
- Integrate and use leading open source tools such as MongoDB, Express.js, React.js, Node.js.
- API-based backend written in Nodejs with Express and Loopback, using MongoDB.
- Create front-end interface for customer using Bootstrap / JavaScript / HTML / CSS.
- Implemented new UI and templating system with Bootstrap and JavaScript to improve UX and system flexibility.
- Deploy web applications on AWS, GCP and Heroku.

Minh Quan Company / Assistant manager

2014 – 2015: Hanoi, Vietnam

- Supported sales and business staff daily.
 - Created invoices and process customer payments.
 - Called vendors to check on orders, schedule deliveries, and coordinate payments.
 - Attended vendor meetings with executives to log notes and manage presentations.
 - Worked closely with General Manager to drive a guest focused sales strategy.
 - Used information technology to record sales figures, for data analysis and forward planning.
 - Updated the company website.
-

#Side Projects

mWebsite: <http://minhdo.tech/>

Used HTML, CSS (SASS) and JavaScript to build personal's website. This project focused on advanced CSS topic such as animations, transformation and responsive design.

mBlog: <http://mblog-beta.s3-website.us-east-2.amazonaws.com/#/>

Used VueJS, Vue-router, Vue-resource, Webpack, Firebase to build a simple blog. Hosted on AWS S3.

mConnect: <https://immense-beach-77797.herokuapp.com/>

Used MongoDB, Express, React, NodeJS (Full-stack MERN) to build a social network for developers.

mSurvey: <https://infinite-earth-35505.herokuapp.com/>

Used MongoDB, Express, React, NodeJS (Full-stack MERN) to build a survey collection application which was available to create a survey, send a survey to a recipient list, and collect feedbacks.

mMenu: <https://mmenu-ca.herokuapp.com/>

Used MongoDB, Express, React, NodeJS (Full-stack MERN) to build a social network for everyone who wants to share their amazing meals with others.

#Education
